Australia H. R. Brown *Belgium* E. Mertens, E. H. Grand'ry *Canada* D. S. Montgomery *France* R. Cheradame, P. Laffitte *Germany* M.-Th. Mackowsky *India* J. W. Whitaker *Italy* C. Padovani *Japan* A. Shimomura *Netherlands* D. J. W. Kreulen, J. P. Dommisse *New Zealand* J. Ivon Graham *Poland* B. Roga *South Africa* A. J. Petrick *U.S.A.* H. H. Lowry

Cumulative Contents

	PAGE
Indexes	iii
Editorial. *I. G. C. Dryden*	1
New possibilities for investigating air-oxidation of coal surfaces at low temperatures. *J. Iskra and J. Laskowski*	5
The constitution of an Australian brown coal resin. *J. D. Brooks and J. R. Steven*	13
Determination of sulphur in fly-ash by x-ray emission spectroscopy. *S. C. Goadby and J. F. Stephens*	19
Introduction of primary amino groups into coal structure. *A. C. Bhattacharyya, A. K. Chatterjee and A. Lahiri*	25
A high-resolution proton magnetic resonance study of refined tars II—High molecular weight fractions (of coal tars). *K. D. Bartle and J. A. S. Smith*	29
Atomic absorption analyses of calcium in brown coal using a resonance lamp as monochromator. *P. L. Boar and J. V. Sullivan*	47
The effect of mild heating on the 1600 cm^{-1} region in the infra-red spectrum of coals. *R. A. Durie, J. Shewchyk and R. A. Friedel*	53
Electrical properties of coals and carbonized materials. *K. Ouchi*	71
X-Ray studies of fulvic acid, a soil humic compound. *H. Kodama and M. Schnitzer*	87
Chemical constitution of coal XIII—The products of oxidation of humic acid with six parts of potassium permanganate at 30°C. *C. Davies and G. J. Lawson*	95
Electron paramagnetic resonance of coals during electron irradiation. *H. L. Retcofsky, A. G. Sharkey Jr and R. A. Friedel*	109
Aspects of the reactivity of porous carbons with carbon dioxide. *J. H. Blake, G. R. Bopp, J. F. Jones, M. G. Miller and W. Tambo*	115
Chemical constitution of coal XIV—The products of oxidation of humic acid with three parts of potassium permanganate at 30°C. *C. Davies and G. J. Lawson*	127
The effect of esterifying agents on the suppression of swelling of coals. *A. C. Cunningham and W. F. Wyss*	137
The microscopic examination of oxidized char. *K. M. Dawson*	159
The cracking of tar vapour and aromatic compounds on activated carbon. *D. M. L. Griffiths and J. S. R. Mainhood*	167
Alkaline permanganate oxidation of artificial coals prepared from lignin and cellulose. *Hiroshi Tsukashima*	177
Adsorption of gallium on peat and humic acids. *Gr. Eskenazy*	187
The effect of maceral composition on the binderless briquetting of hot char. *M. F. Woods, G. M. Habberjam, K. Elsworth and S. Bennett*	193
Chemical constitution of coal XV—Properties of the products of extraction of selected humic acids with aqueous acetone. *N. T. Bailey and G. J. Lawson*	211
The condensation of oxidized coals with amines. *W. F. Wyss*	219
Obituary: Dr W. A. Kirkby. *A. E. Beet*	223
The effect of high mechanical pressure on certain types of coal. *S. Karaivanov and Z. Petrounova*	239
Studies on the production of carbon black from petroleum stocks. *Mohammad A. Saleh and Sameh G. Serag-El-Din*	247

PAGE

The bonding of water to brown coal. *R. Stewart and D. G. Evans* 263

Measurement of the reactivity of semicoke during its formation by carbonization. *J. Romováček and J. Malinský* 275

Phenolic groups in coal extracts and residues. *T. P. Maher and J. M. O'Shea* 283

Need for expressing degree of coalification in coal petrology. *J. A. Harrison* 289

An infra-red study of hydrogen bonding in asphalt. *J. C. Petersen* 295

The evolution of volatile matter from pulverized coal particles. *Edmund Zieliński* 329

Adsorption of carbon dioxide, methanol and water vapour on cokes—Determination of micropore volume. *P. Chiche, H. Marsh and S. Prégermain* 341

A review of structural studies of the carbonization of coals. *H. Marsh and H. P. Stadler* 351

Helium densities and related properties of Japanese coal. *Shuya Fujii and Hikotada Tsuboi* 361

The isolation of certain compounds from depolymerized brown coal. *K. Ouchi and J. D. Brooks* 367

Some aspects of the chemistry of nitration of coal. *B. K. Mazumdar, A. K. Chatterjee and A. Lahiri* 379

The determination of zinc in coal. *C. Weaver* 407

The determination of solubility parameters for coal. *N. Y. Kirov, J. M. O'Shea and G. D. Sergeant* 415

Determination of total sulphur in coal. *S. S. Asthana* 425

The behaviour of inertinite during carbonization. *G. H. Taylor, M.-Th. Mackowsky and B. Alpern* 431

Adsorption of carbon dioxide on carbonized anthracite. Interpretation by Dubinin theory. *H. Marsh and T. Siemieniewska* 441

The coal research club. *J. G. King* 469

The Storch award for 1967 473

Recent developments and notes. *W. A. Kirkby* 59

Recent developments and notes. *D. G. Edwards* 307, 387, 459

Overseas Correspondents' Notes 145, 229, 314, 391

Publications 63, 225, 475

Letters to the Editor: Carbonate–sulphide association in the coal measures. *H. Mayland* 65

The determination of pyritic sulphur in coal—BCR ashing methods. *R. K. Young and E. A. Zawadzki* 151

Atomic absorption analyses of magnesium in brown coal using a resonance lamp as monochromator. *P. L. Boar and J. V. Sullivan* 230

Progressive depolymerization of coals. *K. Ouchi* 319

Thermal behaviour of massive and granular micrinite. *B. N. Nandi and D. S. Montgomery;* Internal burning in pulverized coal. *M. D. Gray, G. M. Kimber and Mrs D. E. Granger* 394

The effect of particle size on the determination of pyritic sulphur. *R. G. James and M. I. Severn* 476

Abstracts—French 66, 154, 233, 323, 401, 479

Abstracts—German 68, 156, 236, 326, 403, 481

Classified Contents

Abstracts—French, 66, 153, 233, 323, 401, 479
Abstracts—German, 68, 156, 236, 326, 403, 481
Amines, condensation with oxidized coals, 219
Amino groups, introduction of primary, into coal, 25
Anthracites, carbonized, adsn of CO_2 on, 441
Aromatic compounds, cracking of, on activated carbon, 167
Asphalt, hydrogen bonding in, 295

Brown coal resin, constn of, 13
Brown coals, bonding of water to, 263
— depolymerization of, 367
— detn of Ca in, 47
— detn of Mg in, 230

Calcium, detn, in brown coal, 47
Carbon black, prodn, from petroleum stocks, 247
Carbon dioxide, adsn, on anthracite char, 441
— — on cokes, 341
Carbons, activated, cracking of tar vapour etc. on, 167
— reactivity of, with CO_2, 115
Carbonate–sulphide assocn, in coal measures, 65
Carbonization, of inertinite, 431
— of micrinite, massive and granular, — 394
— review of structural studies of, 351
Carbonized coals, electrical props, 71
Cellulose, artificial coals from, 177
Chars, binderless briquetting of, effect of maceral compn on, 193
— oxidized, microscopic examination of, — 159
— structural studies on, 351
Chemistry and Physics of Carbon, Vol. I review of, 63
Coal Science (*Proceedings of the American Conference on Coal Science, 23 to 26 June 1964*), review of, 225
Coals, amino groups in, introduction of primary, 25
— artificial, permanganate oxidn of, 177
— carbonate–sulphide assocn in, 65
— densities, in He of Japanese, 361
— depolymerization of, 319, 367
— electrical props of, 71
— free radicals in, during irradn, 109
— i.r. spectra, effect of heating on 1600 cm^{-1} region, 53
— Japanese, density of, in He, 361
— mech. press. on, effects of, 239
— nitration of, 379
— oxidn by air of surface of, 5
— oxidized, condn of, with amines, 219
— petrology, degree of coalifn in, 289
— pyritic S in, effect of particle size on detn of, 476
— — detn of, 151
— solubility parameters, detn of, 415
— solvent extracts and residues of, phenolic groups in, 283
— swelling of, suppression of, by esterifying agents, 137
— total S in, detn of, 425
— volatile matter from pulverized, evolution of, 329
— Zn in, detn, 407
Coalification, degree of, and petrology, 289
Cokes, adsn of CO_2, CH_3OH and H_2O on, 341
— low temperature, reactivity during formation of, 275

Densities, of Japanese coals in He, 361
Depolymerization of coal, 319
— (brown coal), 367

Editorial, 1
Electrical properties, of coals and carbonized coals, 71
Esterifying agents, suppression of swelling of coal by, 137

Fly ash, detn of S in, 19
Free radicals, in coal during irradiation, 109
Fuel Calorimetry, review of, 226
Fuel—Solid, Liquid and Gaseous, review of, 227
Fulvic acid, x-ray studies of, 87

Gallium, adsn, on peat and humic acids, 187

Henry H. Storch Award for 1967, 473
Humic acids, adsn of Ga on, 187
— aq. acetone, prods of extn with, 211
— oxidn, by permanganate, prods of, 95, 127
Hydrogen bonding, in asphalt, 295
Hydroxyl groups, in coal extracts and residues, 283

Inertinite, behaviour during carbonization, 431

Lignin, artificial coals from, 177

Macerals, effect of, on binderless briquetting of chars, 193
Magnesium, detn, in brown coals, 230
Methanol, adsn, on cokes, 341
Micrinite, massive and granular, thermal behaviour of, 394
Micropore volume, of cokes, 341
Moisture, bonding of, in brown coal, 263

Nitration, of coals, 341

Obituary: Dr W. A. Kirkby, 223
Overseas Correspondents' Notes, 145, 229, 314, 391

Peat, adsn of Ga on, 187
Petroleum, prodn of carbon black from, 247
Pressure, mechanical, effects of, on coals, 239
Publications, 63, 225, 475
Pulverized coal, evolution of volatiles from, 329
— internal burning in, 399
Pyritic sulphur in coal, detn, 151
— effect of particle size on detn of, 476

Reactivity, of semicokes during formation, 275
Recent Developments and Notes, 59, 307, 387, 459
Resin, in brown coal, constn, 13

Tars, refined coal, n.m.r. study of high mol. wt fractions, 29
Tar vapour, cracking of, on activated carbon, 167

Volatile matter, evolution of, from pulverized coal, 329

Water vapour, adsn, on cokes, 341

Zinc, detn, in coals, 407
